

SNOW AND RAIN.

We remember as early as 1850 hearing in California an old 48er reply to a person who was grumbling about the severity of the winter, the time will come when the people of California will pray for an abundant fall of snow and rain. That man was a prophet, the time has already come when an abundant fall of snow and rain is as indispensable to the Mining and Agricultural interests of that State, as the inundation of the Nile to Egypt. Nor are we uninterested—independent of Sanitary considerations for we have observed that dry seasons are invariably unhealthy, the time is not far distant when every drop of water that flows in the Truckee will be utilized, and there fore precious. Not as some imagine for the use of mills alone but for agricultural purposes, and it is something of a question which would be the more profitable, we heard a witness the other day in court say (in speaking of the value of water) that it was worth so much for mill purposes, but it would be worth more for a clover field—Our ranchers, already fully appreciate its value, and it is no longer regarded as simply an appurtenant of but of more value than the land itself, then you that would escape the epizootic, you that would see our sagebrush land transformed to clover, and blossom as the rose, pray for snow and rain.

OUR LEGISLATURE.

We have not as yet summoned up the facts of our delegation, but as far as we could or have observed they have proven themselves worthy representatives of our county, and therefore deserve the thanks of their constituent. We are not of those who estimate a representative by the number of bills introduced or speeches made during a session, but by the attendance to Legislation duties in committees and elsewhere. We are satisfied that they have carefully watched and assiduously worked for the interest of our county, and more than all will return to us they left us without a stain or blemish upon their character.

Our Town.—We have been repeatedly asked, "Why don't you write up the town of Reno? Why don't you speak of the great water power tendered by the hand of nature, and running to waste in the fast flowing Truckee; of the inducements to capitalists to build mills and manufactories; of the vast agricultural country surrounding us; of the mines which promise to rival the Comstock; of the schools and colleges that will induce families to settle in our midst?" The simple answer to all this is, "Men make States, cities and towns, we have not, and never had any 'cohesion' (that's the word) among our business men. Where one can be found to take a step in advance for the public good, ten are ready to pull that one back, and until we can secure unity of purpose and action among ourselves, and the sinking of individual jealousies, for the good of the town, Reno will not and cannot attain its possibilities.

The resignation of Governor Booth devolves upon Lieutenant Governor Pacheco the office of Governor for the remainder of Booth's unexpired term. The office of Warden of the State Penitentiary, incident to the Lieutenant Governorship, devolves upon Senator Irwin, of Siskiyou county, who was chosen Speaker *pro tem*, of the Senate, the last session of the Legislature.

Meeting.

LOS ANGELES, March 4.

About 40 leading citizens met in the office of the Los Angeles and Independence Railroad last evening for the purpose of considering ways and means for increasing the subscription to the stock of the road to \$300,000. One hundred thousand dollars has already been subscribed, including \$10,000 from Inyo county. J. U. Crawford, chief engineer, made a verbal report stating he had been authorized to proceed with the tunnel in Cajon Pass, and that at an expense of \$15,000 per month would complete the tunnel in a few months. He had contracted to have a wharf at Trexton completed by the end of May. They are excavating the approaches to the tunnel, employing 200 men. Several present offered to double their subscriptions. During the evening \$31,900 was subscribed, and a committee appointed to canvass the city. It is expected the full amount, \$300,000, will be raised before April.

Los Angeles and Independence Railroad—Etc.

LOS ANGELES, March 4.

About forty of the leading citizens met last evening interested in the Los Angeles and Independence Railroad. An earnest determination to build the road was manifested by a large amount of stock taken. The Secretary was instructed to telegraph

to Senator Jones that \$200,000 would be taken by the 15th inst.

The contract has been let for the construction of a \$40,000 school house at Artesia. Work was to have been begun on it to-day.

Work is progressing with great energy on the Southern Pacific Railroad. At all points the grades are pushing forward fast from Spadra and now have a road leveled out about seven miles beyond Cocomungo; about 19 miles in all from Spadra. About 100 teams and 300 men are engaged in grading this section. At the rate work is progressing, the road will be graded on to San Geronimo by the 1st of May.

EUROPE BRISTLING WITH BAYONETS.

The military contributor of the Cologne Gazette compares the present strength of the German army with that of the armies of the other leading European powers. At the beginning of 1875 the German army consisted of 31,830 officers, 1,329,600 men, 314,970 horses, 2,700 field guns and 820 siege guns. Of these the number of troops available for service in the field within six weeks after the mobilization is, excluding the transport and staff corps, 710,130 men, with 114,550 horses and 2,082 field guns. These figures do not include the fourth battalions, 3,400 officers and 152,100 men, formed in case of war, or the landsturm to be raised under the new law, which would bring into the field a force, by the computation of 3,748 officers and 202,500 men. The total force at the disposal of Germany is, therefore, 38,948 officers and 1,684,200 men, excluding surgeons and the hospital corps, and not taking into account the probability that the estimated force of the landsturm will be greatly exceeded when in the field. The strength of the Russian army, including the Don Cossacks, but excluding Caucasian and Asiatic troops, is 1,376,860 men, of whom 761,000 are available for field service; the French army, 1,098,400 men, of whom 635,700 are available for the field; the Austrian, 865,000, including 262,750 field troops and reserve; the Italian, 741,700, including 379,000 field troops and reserves; the English (including militia, but excluding volunteers) 280,240, of whom 93,860 are the highest number available for the field, without fresh enlistments. From these figures Germany is the first military power in Europe. The organization of the "territorial army" in France may ultimately increase the French army by from 450,000 to 520,000 men; but then Germany will have 100,000 soldiers more than France, and by putting forth all her strength, she might obtain 200,000 or 300,000 more. It is also to be considered that even if the German army were raised to 1,800,000 men, it would consist almost entirely of well trained soldiers, which in France can only be the case as regards the territorial reserve, in some twenty-five years time.

Proposals to state the amount per capita per month, or week, or day in coin, for keeping said persons and furnishing building, board, beds, bedding, fuel, lights, care and attendance, with medicine and medical attendance or without medical attendance—or for what amount in the aggregate the Ingham Sick and County paupers of Washoe County will be kept per month in coin from the date a or said for six months or one year, including building, supplies and care as above set out with medicines and medical attendance. The Board reserving to themselves the right to reject any and all bids. Bids to be marked "Hospital Bids" and directed to the Clerk of the Board of County Commissioners, Washoe county, Nevada. By order of the Board, J. S. SHREVE, Clerk.

DR. A. B. SPINNEY, WELL KNOWN throughout the country as a Pathologist and Physiologist whose successful treatment of certain physical disabilities and functional derangements, especially entitled him to the familiar recognition of the GREAT SPECIALIST, would respectfully inform the citizens of Virginia City, Nevada, and vicinity that he can be consulted at No. 188 South C street, Virginia, seven doors north of the French Drug Store, at his office, thus giving invalids an opportunity of riding themselves, through his professional agency, of such constitutional annoyances and ailments as he claims to compress and to cure. Without entering into biographical details, it is sufficient to simply promulgate the fact that Dr. SPINNEY'S earliest reputation may be traced back to his inauguration and conduct of the Montreal (Canada East) Medical Institute. The name of the English Pharmaceutical College is gauged by an elevated standard. An extended experience and an assiduous study of the varied phases of disease enables him to guarantee assurance of success in the eradication of the multifarious chronic affections incident to both sexes, such as Nervous Debility, Exhausted Vitality, Youthful Excesses, Marriage Impediments, Chronic and General Afflictions.

TO THE LADIES.

DR. SPINNEY, while naturally impressed with the delicacy of the subject, feels no hesitancy in assuring them that, in conjunction with a competent knowledge of the various morbid affections, such as Nervousness, Neuritis, Spinal Weakness, Loss of Appetite, Lassitude, Dropsical Effort, Interpositions or Displacement of the Womb, Vaginal Irritations, Leucorrhoea, Dyspepsia, Indigestion, Constipation, and the many petty, irritating distractions that almost invariably have their origin in the uterine region, afford them immediate relief.

YOUNG MEN.

Who may be suffering from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit five hundred dollars for every case of seminal weakness or private disease of any kind or character which he undertakes and fails to cure. He would, therefore, say to the unfortunate sufferer who may read this notice, that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage—remember you are approaching the last. If you are bordering upon the last, and are suffering some or all of its evil effects, remember that if you obstinately persist in procrastination, the time must come when the most skillful physicians can render you no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you relief. In no case has the Doctor failed of success. Then let not despair work itself upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grim death hurries you to a premature grave.

COME AND BE HEALED.

It matters not what your trouble may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourself whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will say so, for he will not and take a cure unless he is confident of effecting a cure.

MIDDLE-AGED MEN.

There are many of the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for; on examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thick and turbid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs. N. B.—Only an interview required in a majority of cases; balance of treatment can be conducted at home without interruption of business. No cases treated without a personal interview and per examination. Office hours—10 to 1, 2 to 4, and 7 to 8. Consultation Free. Examination and advice \$5.

THE ALLEGHANIANS.—This troupe so long and favorably known in the Eastern States, now enroute for San Francisco, and towns on the Pacific Coast, gave one of their select concerts at Dyer's Theatre last evening to a crowded house. The Quartette singing, the Bell ringing, and the music discoursed by the ladies and gents Silver Orchestral Band was well rendered and fully sustained the high reputation which they hold among musical people; while the comicalities of their Comedians, raised the audience to the highest pitch of side-splitting laughter. The Musical Glasses is a novel feature in their concerts which must be heard to be appreciated. To night the troupe will appear again for the last time, and we advise all to obtain tickets early at the Postoffice to secure good available seats, for they will be repaid, doubtly so by an entire change of programme and a good entertainment.

A PITIFUL STORY.

[From the Desk of Free Press.]

He looked into the waiting room at the railroad depot yesterday, saw an elderly couple there waiting to go West, and then, after making sure that the special policemen were not around, he entered the room.

He was a man who had seen other days, that was plain.

His pling hat was years old, his coat shone with age and grease, and there was no collar on his neck. A police man would have mentally recorded him as a "vag" without a moment's hesitation, and the fellow would have stood a chance of being trotted to the Central Station.

"My good friend," he commenced, as he approached the innocent old couple from Vermont, "for Heaven's sake help me a little."

"Who are you?" asked the husband struck with the humbler's homesome voice and general hard look.

"Name's Jones—Kansas—grass hoppers" replied the man turning away his head as if deeply affected.

"Be you one of those poor nippers that were almost cut up by the grasshoppers?" exclaimed the woman, her sympathy all aroused.

"The same, m'dm," he said, "I was 'had to leave the State, going to New Hampshire, got as far as here and money gave out. Heaven only knows what'll become of us."

"Are you married?" she asked.

"Yes, 'um, wife n' nine children. They're out here on the corners in a wagon, all sick and shivering with the cold."

"I've heard about them grasshoppers, were they very thick?" asked the man.

"Thick," echoed Jones, "you couldn't tell the difference 'twixt 'em all night, and the roving of them wings made us all deaf."

"My grasshoppers!" bit was it that awful!" sighed the woman.

"I had a hundred acres of corn, fifty of wheat, thirty of oats—nice meadow—lots of fruit, but the grasshoppers made a beggar of me in five hours," continued Jones.

"They eat the stuff right up, did they?"

"Eat? Why, the fam'n looked as if a fire had passed over it. They took everything—even chewed up loaves of bread. I turned out on 100 rods of fence, and every mouthful of it went in thirty seven minutes by the watch."

"I never heard of the likes," exclaimed the man.

"There's folks here who don't believe it," continued Jones, "but it is a solemn fact that the grasshopper has chewed up iron wedges, gnawed the boards off the barn, bit pop points all up and if we hadn't hidden our horses in the cellar they'd have been munched sure!"

"And you had to leave?"

"Yes. Sold my land for \$11, got my family into the wagon and started East. Been 180 days on this far, and buried two children on the way. Lord! only knows what's to come of us. I wish I was in the river out there, then my heart would not be burstin' with grief and trouble."

"Poor man!" said the woman.

"Eh, let's give him \$2."

"Two dollars is a pile of money," mused the man.

"But it's an awful sad case. Let's neez—niff to touch a heart of flit."

"The Lord loveth a cheerful giver," added Jones, as he drew his sleeve across his nose.

"Wall, I s'pose it's a hard case, and we won't be any poorer for givin' \$2," said the husband, as he pulled out his wallet and handed out a \$2 bill.

"Thanks, my kind friend," replied Jones, "I hope you will never see the trouble I'm in. This'll buy medicine and provisions, and kinder help us along like, and I feel as if I could throw my arms around ye and hug ye for yer kindness."

"That's all right," said the husband.

"I wish it was ten," said the woman, as she shook Jones out of her hand.

He slid out, and ten minutes after ward might have been seen in a front street s'loping pouring bad gin out of a tall cecant and remaking to the barkeep.

"Siv, old pard, was it in Virginia or Kansas that the grasshoppers was so thick?"
